PROFESSIONAL SUMMARY

Software developer with hands-on experience building and deploying **full-stack web applications** using **MERN/MEAN** technologies, **REST APIs**, **JWT authentication**, and **cloud deployment** platforms (Vercel, Render, Netlify). Skilled in developing **scalable backend architectures** and **AI-powered solutions**, with a strong foundation in **DSA** (200+ LeetCode), **DBMS**, **OOPs**, **Operating Systems**, and **Computer Networks**.

EDUCATION

Parul University <i>B.Tech in Computer Science and Engineering, 7.94 CGPA</i>	Vadodara <i>Sept 2023 – May 2027</i>
Delhi Public School <i>Higher Secondary Education, 75.2%</i>	Shikohabad <i>Apr 2021 – Mar 2022</i>
Delhi Public School <i>Secondary Education, 74.6%</i>	Shikohabad <i>Apr 2019 – Mar 2020</i>

PROJECTS

Aethron – AI-Powered Learning Assistant [GitHub] [Live]	Mar 2026
- Built and deployed a full-stack AI-powered learning platform using the MERN Stack (Node.js, Express, MongoDB) (frontend: Vercel, backend: Render) with JWT auth, role-based access control across 3 user roles, and modular MVC architecture. - Engineered 5+ RESTful API endpoints with centralized error handling and AI API integration for context-aware Q&A; implemented rate limiting to prevent API abuse.	
StackForge – Full-Stack Issue Tracking Platform [GitHub]	Present
- Built a Jira-inspired issue tracker using the MEAN stack (Angular 21, Node.js, Express.js, MongoDB Atlas) with JWT auth, role-based access control (Admin/Manager/Developer), and 4 resource modules. - Implemented RESTful APIs with pagination, filtering, and centralized error handling; designed MongoDB schema with indexed fields on issue status and priority to reduce redundant queries.	
Mausam – Weather Forecasting Mobile App [GitHub]	Aug 2025
- Built a cross-platform mobile app (Android & iOS) using Flutter and Dart with real-time weather via OpenWeather API; handled JSON parsing, GPS location services, and graceful error states. - Implemented API retry logic with exponential backoff, cached responses, and local state management with clean architecture separation (data, domain, presentation layers).	

TECHNICAL SKILLS

Programming Languages: Java, C, JavaScript, Python, Dart
Web Technologies: HTML, CSS, React.js, Angular, Node.js, Express.js, Django, Flask, FastAPI, Tailwind CSS, Framer Motion
Mobile: Flutter, Android Studio
Databases & Tools: MongoDB, MySQL, Git, GitHub, VS Code, IntelliJ IDEA, Postman, MongoDB Compass, Linux
Cloud & Deployment: AWS, Microsoft Azure, Vercel, Render, Netlify
Java Ecosystem: Spring Boot, JDBC, JSP, Maven
CS Fundamentals: DSA (200+ LeetCode), DBMS, OOPs, Software Engineering, Operating System, Computer Networks
AI/ML: NumPy, Pandas, Scikit-learn, Data Analytics & Visualization, AI API Integration

ACHIEVEMENTS AND CERTIFICATES

DSA: Solved **200+ problems** on LeetCode covering arrays, strings, trees, graphs, and dynamic programming.
Competitions: Participated in Vadodara Hackathon 6.0 (2025).
Academics & Certifications: AWS Academy Cloud Foundations (20 hrs) | NPTEL Computer Networks (**Elite**) | IBM AI Fundamentals & Cisco.
Co-curricular: Active member of Errors Web Development Club and Coding Club.

SOFT SKILLS

Problem Solving, Analytical Thinking, Team Collaboration & Communication, Time Management, Adaptability, Ownership Mindset
